Senior Factory Manager  
Unilever Myanmar Limited

Unilever is a world renowned multinational company that makes and sells consumer products under more than 400 brand names.

Orb has installed 120 solar collectors on one of Unilever’s food and shampoo processing plants in Myanmar. This system heats water to more than 85°C on sunny day, and generates 450,000 kcal per day. Orb provided a custom system design that seamlessly integrated with Unilever’s existing hot water generation infrastructure.
